Kindly cancel claims 1-12 without prejudice or disclaimer. A detailed listing of all

claims is as follows.

Claims 1-12 (Canceled)

Claim 13 (Original): A liquid crystal display device, comprising:

a liquid crystal display panel;

a backlight assembly disposed at a rear surface of the liquid crystal display panel,

including a rectangular planar cover disposed at the rear surface of the liquid crystal display

panel, a bottom coupled with a circumferential portion of a rear surface of the cover to form a

sealed inner space, an anode disposed on central portions of the rear surface of the cover internal

to the sealed inner space, a cathode disposed on a surface of the bottom internal to the sealed

inner space, power supply means electrically connected to the anode and the cathode to supply

an external power source, and a plasma-discharging gas injected into the sealed inner space

between the cover and the bottom.

Claim 14 (Original): The liquid crystal display according to Claim 13, wherein the rear

surface of the cover includes a fluorescent material layer.

Claim 15 (Original): The liquid crystal display device according to Claim 14, wherein a

display surface of the liquid crystal display panel is supplied with surface light having uniform

1-WA/2049027.1

brightness from a reaction between the plasma-discharging gas and the fluorescent material layer.

Claim 16 (Original): The liquid crystal display according to Claim 13, further comprising:

at least one diffusion sheet disposed between the liquid crystal display panel and the backlight assembly; and

at least one prism sheet disposed between the liquid crystal display panel and the backlight assembly.
